One Tap to
Speed up your Charging!

Clean Junk Completely
More Storage Space

The charging process on your mobile devices surely takes a lot of time to complete, especially if you're working with devices with large battery capacity and are running multiple tasks in the background. So, to help Android users to have their fully-charged battery ready to use as quickly as possible, this important tool from NUOTEC STUDIO is certainly a must for mobile users. Here, by featuring a variety of different features which would help Android users to optimize the running time of their battery as well as the charging periods, Super Charging Pro will make sure that you can be most comfortable with the battery usages. In addition, the useful tool also provides many interesting features that would help you have better management over the devices. Learn more about this interesting app and all of its impressive features with our comprehensive reviews. What does it do? With Super Charging Pro, Android users will have themselves the perfect mobile tool for optimizing the battery running and charging time on their smart devices. Thus, allowing users to be most comfortable with their on and off-screen periods. And on top of that, Super Charging Pro also provides a variety of different tools that would further enhance your device's usages. Start by allowing unnecessary background instances to be stopped, Super Charging Pro will make sure that your battery is in the optimal state while using and charging. Also, screen brightness can be reduced to reduce the stress being put under the battery. All Wi-Fi, GPS, Bluetooth, and other unnecessary wireless connections can be reduced in performance to let the battery be charged without getting drained. And the real-time monitoring menu will let you keep track of all important aspects of the device, its battery, and the charging process. Also, you can now work with the useful Boost tools, which allow Android users to clean their storages, optimize the system memory, cool down the CPU, clean up notifications, clipboards, and so on. Feel free to make users of the provided tools browse files on the devices, manage applications on the system, keep track of the charging status as well as your battery usages. All of which should come in handy whenever you need to manage its battery usages and charging experiences. Requirements For those of you who are interested in this awesome mobile application of Super Charging Pro, you can now pick up the free version of the app on the Google Play Store, which should be available for all Android users to enjoy without having to pay anything. Here, you can immediately work with the fast-charging features to optimize the battery usages. But if you want to get rid of the annoying ads, there will be certain in-app purchases that you need to pay for. In addition, to ensure the stability and compatibility of the app on your current devices, it's important to have the systems updated to the latest firmware versions possible, preferably Android 4.1 and up. This will make sure that you can enjoy working with the app on your devices without any troubles. And like other Android apps, Super Charging Pro will require certain access permissions from your devices, so make sure to consider its requests upon entering the app for the first time. Awesome features Here are all the exciting features that the app has to offer: Clean UI with easy-to-use features To start with, Android users in Super Charging Pro will have themselves the intuitive and clean UI, which makes the app super easy to work with. Feel free to interact with the accessible menu and the neatly presented features in the app. Simply select and interact with each feature to discover their massive implementations with improving your system battery usages. The app will make sure that it would work for all of you, beginners and experienced users alike. Optimize the device resources for improved battery usages No matter if you're charging or currently using your devices, it's always important to have the battery usages completely optimized. This will make sure that you can have more on-screen time without sacrificing too much battery usages. And when you're charging, having as little power consumption as possible will let your devices be charged properly. So Super Charging Pro actively works to automatically optimize your Android system in many ways. Start by stopping the background processes from consuming too much battery power, as it prevents unimportant apps from running after you've exited them. Also, your system screen brightness can be automatically reduced by Super Charging Pro, if it notices you're using intense screen settings. All wireless connections, including Wi-Fi, GPS, Bluetooth, and other available settings that are consuming battery will be deducted so your battery can slowly and healthily regain its power. Real-time monitoring of your device status In addition, Android users will receive immediate notifications upon any abnormal power consumption increases. Thus, allowing you to make quick adjustments to the devices and make sure that your battery usages are still optimized. For those of you who are interested, the app also provides its real-time monitoring of your devices' status whilst charging, including the temperature, CPU usages, storages, and other system status, so you can easily manage the devices and prevent any overheating problems. And while charging your devices, Super Charging Pro will quickly calculate and provide you with a complete prediction of the remaining charging time. Thus, allowing Android users to know exactly when to come back for their devices. Keep track of your charging history After each charge, Super Charging Pro will automatically record your charging data, which include the charging status as well as any related pieces of information from the devices during the charging periods. Thus, allowing Android users to look at and easily assist the devices' status at that time. All you need is to access the History menu to take a look at any of these charging records and make further analysis based on the provided data. Powerful and convenient Boost features And to make sure that Android users can enjoy their mobile devices even more, Super Charging Pro also offers many powerful and convenient Boost features for your system. Here, you can choose to work with the Junk Cleaner to get rid of any unnecessary cache, junk files, ads data, and other unimportant stuff, by simply allowing Junk Cleaner to scan and delete all of them from your system. Plus, you can clean notifications, clipboard content, and other unused data from the devices to make room for new records. Also, if you ever feel like cleaning system memory, the quick RAM booster option in Super Charging Pro will let you quickly boost the system with one simple tap of a button. And to better manage your Android devices, Super Charging Pro users are also introduced to many quick access tools from the app's menus. Here, you can first choose to browse files on your system internal and external storages. Feel free to access the files and folders to make any changes to them as you wish. Access the App Manager to start exploring existing apps on the system and easily manage them with many options. Create shortcuts for apps on your systems so you can quickly access them on the fly. Discover the complete battery usages in which it lists out all apps and app instances together with their battery consumptions. The list goes on. Enjoy the modded app on our website And last but not least, for those of you who are interested in this amazing mobile application of Super Charging Pro but don't wish to pay for the premium purchases, you can now go for the modded version of the app on our website instead. Here, we offer the modded version of the app which you can download for absolutely free. With unlocked premium features and removed ads, Android users can make the most of Super Charging Pro without having any troubles. All app analytics and trackers are also disabled, together with the removals of unwanted files and app permission, so you can have better privacy when using the app. Plus, the optimized and responsive application will also allow Android users to have better experiences with them. Simply download the Super Charging Pro Mod APK, follow the given instructions, and you can start making users of the powerful charging and system managing tool. Final verdicts With simple yet powerful battery optimization features, together with the useful device management tools, Super Charging Pro will allow all Android users to make the most of their devices. Now, your phone can charge faster, use less battery and resources, while you're also allowed to optimize its performances in many ways. Not to mention that the free and unlocked app on our website will let you enjoy all these amazing perks without having to pay. Download APK Name Super Fast Charger Pro Package com.battery.quickfastcharging Version 1.0.6 Size 3.01 MB Developed By DreamHappy Studio Fast Charger Pro (Package Name: com.ttec.fastcharger.pro) is developed by NUOTEC STUDIO and the latest version of Super Charging Pro 5.14.92 was updated on July 4, 2022. Super Charging Pro is in the category of Tools. You can check all apps from the developer of Super Charging Pro and find 95 alternative apps to Super Charging Pro on Android. Currently this app is for free. This app can be downloaded on Android 4.1+ on APKFab or Google Play. All APK/XAPK files on APKFab.com are original and 100% safe with fast download. The charging function of the mobile phone is automatically optimized in the following ways: Reduce the screen brightness, reduce power consumption to save battery power. Notify users to deal with abnormal power consumption increase in a short time. Optimize WiFi, GPS, Bluetooth and other system settings to reduce mobile phone consumption. Real-time monitoring of mobile phone temperature, remind users to unplug the charger to prevent overheating. Accurately predict the remaining charging time and reset fully charged. Issues fixed.
